Part B for May 46

SUBJECT

Government grant of Rs 11000 for the annual maintenance charges of Kolar Water-work

X 12809 § 14.5.46

The D.C. Kolar. State matter cannot be sanctioned

13

From the D c Kolaba -

Recommends / Reports A 5 c 553/43 of 11/7/45 - that a govt grant of Rs 4000 may be given towards the A & R charges of Kolaba water works for 45-

If govt grants are given only for taking up of new works it is the obligatory duty of the municipal council to provide funds from out of its funds towards the maintenance of such works and it would create a bad precedent, if the request of the Kolaba Town Mun Cl is complied with. Moreover, there is a separate proposal relating to the improvement of water supply at Kolaba at a cost of Rs 20,000 the entire cost is proposed to be met out of state funds At-least half the cost viz Rs 10,000 has to be given as an outright grant towards the work

In the above circumstances, the request of the Kolaba Town Mun Cl for a govt grant of Rs 4000/- towards the A & R charges of the local water works is unable for orders In this connection, it may be stated that the receipt of budget estimates for 45-46 is awaited.

Mem 11/8/45 3/ What is the financial effect if any if my proposal to accept the budget estimates is accepted ? If not why ?

Govt Memo 1/3

File No | of 194 | General and Revenue Secretariat

Serial No

From the D C Kolar dt
No AS C 65/3/45 dt 28/2/46
requests sanction to
a grant of ~~Rs~~ Rs 1,620/-
for installing a pumping set
at Kolar water works

11) There are two proposals
1) praying for a grant of
Rs 4,000 towards the A R
charges of Kolar water works
for 45-46 amounting to Rs 14,0

2) praying for a grant of Rs 1,620/-
for installing a pumping set
at Kolar water works

12) In this connection
the D C reports that, in addition
to certain improvement work to be
carried out at a cost of Rs 4,000
(as sanctioned in Go
dt 23/1/1946), a temporary
pump is proposed to be
installed behind the tank
bed at the place to trace

× Fly 8

over the water difficulty at the place and the entire cost of 1,620/- is also prayed for as grt grant

13) The proposal for a grt grant of Rs 4,000 towards the A.R. charges of Kolim water works may perhaps be turned down, as it would otherwise create a bad precedent

A.

14) As regards the amount prayed for towards the installation of a pumping set viz Rs 1,620/- this may perhaps be sanctioned in addition to a sum of Rs 4,000/- already given to the Kolamtam mal. cl - vide GO dt 23-1-46 in view of the fact that the financial position of the mal cl for 45-46 is very unsatisfactory, as there is a serious closing balance of Rs 16,06 according to the sanctioned budget estimates for 45-46

B

Rs
Y Re → 1,18,585
Exps → 1,34,625
i.e. → (minus 16,060)

15) In the above circumstances/

L 1000-4-6 25/3/46

Sanctions a grant of Rs 1620/-

NOTE—Contn Sheet.

Now the proposal of the Kolar Town Municipal Council praying for the grant of Rs 4,000/- towards the estimate for Rs 14,000 for 1945-46 for the A & D charges of the Kolar water works is submitted for orders.

In this connection, it is submitted that it is the obligatory duty of the municipal council to provide funds towards the maintenance of such works, as no grant is provided for works that are of a capital nature (which the Municipal Council cannot by itself provide for) or are taken up afresh. If this request is complied with, it would create an undesirable precedent. Moreover, the Government have met the entire cost of certain urgent works taken up at Kolar in order to tide over the water difficulty at the place. The total cost of the works amounts to Rs 5,620/- and the same was met out of the water supply grant for 45-46.

proposal for grant-in-aid charges of Kolar water works

23) ~~Again~~ Again, there is a separate proposal relating to the permanent improvement of water supply at Kolar at a cost of Rs 20,000 the entire cost is prayed for as grant-in-aid. At least half the cost of this work has ~~been~~ to be given as grant

24) The financial position of the Kolar Town Municipal Council for the year 1945-46 is very unsatisfactory vide figures in the margin. It is a matter of regret that no amount has so far been given to this Municipality out of the grant for 45-46

Receipts — Rs 1,18,585
Exp — 1,34,645
Deficit 16,060

25) In the above circumstances, it is for orders if a sum of Rs 4,000/- prayed for by the Kolar Town Municipal Council towards the A.R. charges of the local water works for the year 1945-46 may be sanctioned subject to the usual conditions with reference to paras 17 & 21 supra

Bangalore 27/4/46

96) Except in the case of the Municipal Council, grants-in-aid are not given for meeting the annual maintenance charges of waterworks or any other

Municipality in the State
of Kolar is a Distt Headquarter
Mfg: It should be able to improve
its resources in such a way as to
meet the recurring charges of
maintenance of water works at the place
as it is an important item of expenditure
2) The D.C. has recommended the
grant of a sum of Rs 4000/ as an outright
grant to enable the K.M.C. to meet the
Annual maintenance charges for 45-46
as the estimate therefor has come up to
Rs 14000/-
3) The Govt have been generous enough to
have entrusted already liberally towards
the improvement water supply in this town
on a short range basis & approved the
Contributory amount of Rs 20000/ for long term
improvement as before first & further
half the cost of the first stage of the
drainage Scheme has been met by the Govt
to the extent of Rs 11,000 & proposals
for meeting an equal extent (Rs 11000/)
towards the second stage are under
the consideration of Govt

6193

3?) Although the Govt must Control
towards the execution of such
Capital works, yet it would not be
advisable to meet such recurring
charges for maintenance charges
of it would create a very inconvenient
precedent. Hence the proposal may
be vetoed & the Revenue Commissioner
directed to find funds by increasing
its resources further, owing to the
termination of hostilities, war-conditions
would cease within a short time & the
prices of salmon, oil etc would go down
Considerably & the NLCL may not be
put to such extra expense in future

for orders
Secretary) Ag
3/5/46

No grant for recurring Expenditure
Could be given to Municipalities
It would create an Embarassing
precedent. There is no justification
for asking for such relief

Rejects the proposal

Office of the Deputy Commissioner, Kolar District,
Kolar, dated the 11th July 1945.

The Secretary to Government of Mysore,
Law Department, Bangalore.

Sir,

In forwarding herewith a copy of the resolution of the Town Municipal Council, Kolar, passed at their meeting held on 28/4/45 in the matter of meeting the annual maintenance charges of the Kolar Water Works, I have the honour to state that the Sanitary Engineer, has forwarded an estimate for Rs.14,000/- to the President of the Municipality being the maintenance charges for the year 45-46. The Municipal Council who considered the subject, have resolved that having regard to the small balance at the credit of the Municipality, a sum of Rs.10,000/- may be met from the Municipal Funds and that the balance of Rs.4,000/- may be recommended to be met from the water supply grants made by Government, this excess expenditure being an extraordinary expenditure over the usual maintenance charges due to abnormal seasonal conditions. The Sanitary Engineer, who was addressed in the matter states that the question of payment could be considered when the subject is referred to the Department by Government. In this connection it may be stated that owing to the increased population of the Town due to the establishment of the Aerodrome nearby, the Municipality has to provide funds for larger expenditure on Public Works and on the comprehensive drainage Scheme costing more than Rs.33,000/- which are under execution. The Municipal quota for these works has to be met during the year. Apart from this they have also been considering a supplementary Scheme to improve the water supply by constructing a subsidiary tank near the Petrol Pump to arrange for better supply to the Fort, Kelaginpet, and some other localities in the eastern part of the Town. This Scheme is estimated to cost Rs. 26,000/- As the Municipality has to collect funds to meet these urgent and heavy demands, it would be very difficult for the Municipality to meet the full maintenance charges of Rs.14,000/- for the water works also during this year. In these circumstances, I request you to kindly obtain a Government grant of Rs 4,000/- for the maintenance of the existing works for the

OFFICE OF THE DEPUTY COMMISSIONER,
KOLAR DISTRICT,

Kolar, Dated the 17th December 1945

To

The Secretary to Government of Mysore,
Revenue Department, Bangalore

Government Grant to Kolar Water Works

Sir,

With reference to correspondence ending with L 2022 dated the 14th September 1945 from the Additional Secretary, on the above subject, I have the honour to forward herewith a copy of letter No O C 190/10-12-45 of the President of the Kolar Municipal Council and to state that the average annual maintenance charges of the Kolar Water works is Rs 14,000/- per annum for the last 3 years The monthly bills are being paid regularly every month in advance to the Sanitary Engineer As the rains have failed this year, Federahally tank reserved for water supply did not receive the normal supply of water with the result that temporary arrangements for pumping out water from a lower level in the tank bed is found quite essential to assure sufficient supply of water during the summer months of this year The Sanitary Engineer after inspecting the condition has prepared the enclosed estimate for Rs 1620/- for augmenting the water supply The Municipal Council who considered the estimate have resolved on 30/11/45 that as the water level in the tank has gone down, the temporary arrangement is very necessary and that in view of the poor finances of the Municipality, it is unable to meet the cost of the temporary work and that therefore a recommendation to meet the entire cost of Rs 1620/- from State Grant may be made A copy of the resolution is also enclosed

2 It is seen from the review of Government on the budget estimates of the Municipality for the year 45-46 that the normal expenditure is more than the normal receipts resulting in a minus closing balance of Rs 16,000/- at the end of the year 1945-46 The Municipality has taken on hand the comprehensive drainage scheme costing more than Rs.33,000/- and the estimate for the second stage thereof for Rs 22,060/- recommended by the Director of Public Health in Mysore is pending sanction In addition to this, a supplemen-

supplementary scheme for Rs.36,000/- to improve the water facility to certain important localities of the Town, is also pending sanction of Government. In these circumstances, the Municipality is not in a position to bear the entire maintenance charges of the temporary water works now proposed to be taken up for the current year. I therefore request you to kindly place the subject before Government and obtain their kind sanction for a Government grant of Rs.5600/- for the current year from the Water Supply Grants so that the deficit required for the annual maintenance and the temporary arrangements that are necessary for the ensuing summer may be carried through.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Kolar District

No A5.C.653/45-46
Enc. 1 Estimate +1

Office of the Deputy Commissioner
Kolar District.
Dated, Kolar the 28th February 1946.

To

The Secretary to Government of Mysore,
Revenue Department, Bangalore.

Subject: Temporary arrangement for augmenting water supply in Kolar Town

Sir,

With reference to your letter No L 8527 dated the 23rd instant on the above subject, I have the honour to state that the estimate for Rs 162[illegible] is for installing a temporary purping set behind the tank bund and not in the tank bed where the old well is situated and for which a separate pumping unit will have to be fitted up eventually after the surface water in the tank bed is exhausted It is for the latter work that the estimate for Rs 2600/- was prepared by the Sanitary Assistant Engineer and this estimate was sanctioned in G O No L 7216-8/M1 60-45-2 dated 23rd January 1946 The two works referred to above are independent and separate The 1st work is for drawing surface water to the tank through the sluice by installing a booster pump behind the tank at a convenient level The water level above the sluice is only 8" to-day and without the booster pump sufficient quantity of water cannot be drawn by Gravity ~~xxxxx~~ alone to the Jewel filters

The Assistant Engineer has in his note dated 23/12/45 (a copy of which was sent to you on 24/12/45) explained that both the above works in addition to fitting up the Sreekanteswara Iyer's well in the tank bed of Kolar, Amanikere with a purping set, are necessary The pumping arrangement from Sreekanteswara Iyer's well was completed 2 days ago and service commenced from this well to the Eastern part of the Town

As regards the booster pump, it is seen from the President's letter No O C 162/11-2-46 (sent enclosed) that the booster pump has been at work for the past more than a month and that the Municipal Council have resolved to make this arrangement permanent in order to ensure the adequate supply of water at all times In these circumstances I request you to kindly obtain sanction to the estimate for Rs 1620/- and to the Government grant for the purpose

The installation of the purping set to the old well in the Ammerahalli tank for which the estimate sanctioned is for Rs 2600/- is also

also under progress, so that it may be immediately available as soon as the water in the tank is exhausted This estimate provides for deepening the well as well, which will be necessary

The estimate received with your letter under reply is herewith returned.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Kolar District.
